

September 10 2018

**EVENTS (Meeting with librarians):**

- Main issue is that the librarians do not have a reservation system **AT ALL**
- Key is given to the students and returned to the librarians by the end or they will be fined
- An analytics page would be useful for them, quoting Haritos: "The more data, the better"
- Business problem: No reservation system: First come, first served

**EVENTS (Meeting with Haritos Kavallos):**

- Haritos is interested in our ideas
- Supports our love for analytics
- Schedule can be divided into cells of 30 minutes each

**PLANNING**

Continue coming up with ideas for the website
